IV. CHART CORRECTIONS

(Explanation of Format)

Corrective action, affecting charts, is contained in this section. Chart corrections are listed numerically by chart number, beginning with the lowest and progressing through all charts affected. The correction listed pertains to that chart only. It is up to the mariner to decide which charts are to be corrected. The following example explains the individual elements of a typical correction.

Chart number	Chart edition	Edition date	Last Local Notice to Mariners	Reference datum	Source of correction	Current Notice to Mariners
11534 (Temp)	26th ed. Myrtle Grove Sound to Fear River to Casino Creek Add	12/14/91	Last LNM 41/92 *Boguse Channel Light 1, FI G 2.5s, 16 ft, 7M	NAD 83	(CG7)	06/93
	Corrective action		Object of corrective			Position action
					32_48'00"N 79_15'00"W	

The letter (M) immediately following the chart number indicates that the correction should be applied to the metric side of the chart only. (temp) indicates that the chart correction action is temporary in nature. Courses and bearings are given in degrees clockwise from 000 true. Bearings of light sectors are toward the light from seaward. The nominal range of lights is expressed in nautical miles (m). (*) Asterisk is used to identify Private Aids.

VII. GENERAL

A. BRIDGE INFORMATION

FLORIDA-OKEECHOBEE WATERWAY - STUART TO LAKE OKEECHOBEE: Bridge Construction:

The Evans Crary (S.R. A1A) drawbridge across the Okeechobee Waterway, mile 3.5, at Stuart, Martin County, FL, is still under construction. PCL Civil Construction Corporation, the contractor for the project will be erecting the new fixed span across the Intracoastal Waterway that will set the new vertical clearance at 65 feet above Mean High Water. However, authorization has been given by the Coast Guard to restrict the vertical clearance to 52 feet above MHW to facilitate this erection beginning February 3, through February 16, 2000. During this time there will be waterway closures on February 3rd and 4th and again on February 15 and 16th and channel blockage due to the mobilization of a barge that will be within the navigational channel restricting the horizontal channel clearance. The U.S. Coast Guard Marine Safety Office, Miami will post in the Local Notice to Mariners and Broadcasts Notice to Mariners the dates and times for the waterway closures and channel blockages.

FLORIDA-INTRACOASTAL WATERWAY-WEST PALM BEACH-MIAMI-HILLSBORO BRIDGE: Special Bridge Notice.

The Hillsboro Boulevard (SR 810) Drawbridge, Intracoastal Waterway mile 1050.0, Deerfield Beach, Broward County, FL, is proposed to be placed in the closed position from 10:30 a.m. to 12:30 p.m. on February 19, 2000, for the City of Deerfield Beach Founders' Day Parade.

The Coast Guard is seeking comments on the proposed closure period above and the effect it would have on navigation. Comments should be sent to the address on the cover of this notice and should be mailed to arrive no later than February 11, 2000. If you're unable to respond in writing you can comment by calling Michael Lieberum at (305) 536-7331.
